## Our Focus

We believe the values and skills learned early on are vital building blocks for quality of life and future success. That's why our child care programs focus on nurturing child development by providing a safe place to learn foundational skills, develop healthy, trusting relationships and build self-reliance. At the Y, toddlers develop trust and security, preschoolers experience early literacy and learn about their world, and school age kids make friends and learn new skills. Most importantly, children learn how to be their best selves. This makes for confident kids today, and contributing and engaged adults tomorrow.
